

## Heritage Reports Third Quarter 2020 Results

CLEARWATER, Fla., Nov. 2, 2020 /PRNewswire/ -- Heritage Insurance Holdings, Inc. (NYSE: HRTG) ("Heritage" or the "Company"), a super-regional property and casualty insurance holding company, today reported third quarter 2020 financial results.

### Third Quarter 2020 Highlights

- Net loss of \$5.2 million, or \$0.19 per diluted share. Realized investment gains contributed approximately \$15.6 million to net income, or \$0.56 per diluted share.
- Book value per share increased to \$15.97, up 3.9% year-over-year.
- Gross premiums written of \$278.2 million, up 17.3% year-over-year.
- Favorable prior year reserve development of \$5.8 million.
- Net current accident quarter weather losses of \$47.3 million, up substantially from \$18.7 million in the prior year quarter. Current accident quarter weather losses include \$24.5 million of catastrophe losses and \$22.8 million of other weather losses.
- Total capital returned to shareholders of \$1.7 million, reflecting \$0.06 per share regular quarterly dividend.
- Began writing homeowners insurance in Delaware, representing fifteenth active state.

Bruce Lucas, the Company's Chairman and CEO, said, "While we had an unprecedented level of weather losses in the third quarter, we grew book value per share year-over year and saw strong organic growth throughout our footprint. Our top priority is bottom line profitability and we're continuing to pursue rate increases following recent years' elevated weather trends.

### Capital Management Update

Heritage's Board of Directors extended the Company's existing share repurchase authorization by one year to a December 31, 2021 expiration and increased the authorization from the \$23.8 million remaining to \$50.0 million.

Additionally, Heritage's Board of Directors declared a quarterly cash dividend of \$0.06 per share on the Company's common stock. The dividend will be paid on January 5, 2021 to shareholders of record as of December 15, 2020.

### COVID-19 Update

We are currently monitoring the short- and long-term impacts of COVID-19. Through September 30, 2020, we saw virtually no impact to our business. As a residential property insurer, we view our business as relatively insulated from a short-term economic slowdown, as property owners and renters generally view our products as a necessity.

While we acknowledge uncertainties associated with future economic conditions, we do not expect a material impact to our business going forward. We will continue to monitor economic conditions and, in the case of a prolonged economic slowdown as a result of COVID-19, will take necessary actions to mitigate any negative impacts to our business, operations or financial results.

### Results of Operations

The following table summarizes our results of operations for the three and nine months ended September 30, 2020 and 2019 (amounts in thousands, except percentages and per share amounts):

\*Return on equity represents annualized net income for the period divided by average stockholders' equity during the period.

Note: Percentages and sums in the table may not recalculate precisely due to rounding.

### Ratios

*Ceded premium ratio* represents ceded premiums as a percentage of gross premiums earned.

*Net loss ratio* represents net losses and loss adjustment expenses ("LAE") as a percentage of net premiums earned.

*Net expense ratio* represents policy acquisition costs ("PAC") and general and administrative ("G&A") expenses as a percentage of net premiums earned. Ceding commission income is reported as a reduction of PAC and G&A expenses.

*Net combined ratio* represents the sum of net losses and LAE, PAC and G&A expenses as a percentage of net premiums earned. The net combined ratio is a key measure of underwriting performance traditionally used in the property and casualty industry. A combined ratio under 100% generally reflects profitable underwriting results.

### Quarterly Financial Results

Third quarter 2020 net loss was \$5.2 million, down from net income of \$8.1 million in the prior year quarter. The decrease primarily stems from elevated weather losses, partly offset by higher realized investment gains and net premiums earned.

Gross premiums written were \$278.2 million, up 17.3% year-over-year, including 18.1% growth outside Florida and 16.3% growth in Florida. All personal residential Florida growth was outside the Tri-County region and rate increases benefited top line results.

Premiums-in-force were \$1.0 billion in third quarter 2020, representing a 16.9% annualized growth rate from second quarter 2020. The increase stems from the same items impacting gross premiums written.

Gross premiums earned were \$255.0 million in third quarter 2020, up 10.1% from \$231.6 million in the prior year quarter. The increase reflects higher gross premiums written over the last twelve months.

The ceded premium ratio was 45.8% in third quarter 2020, down 0.7 points from 46.5% in the prior year quarter. The decrease primarily stems from strong gross premiums earned growth, which modestly outpaced ceded premium growth.

The net loss ratio was 86.6% in third quarter 2020, up 30.0 points from 56.6% in the prior year quarter. The increase primarily stems from unusually high weather losses and worse current accident year reserve development, partly offset by better prior year reserve development.

The net expense ratio was 36.1% in third quarter 2020, down 2.8 points from 38.9% in the prior year quarter. The decrease primarily stems from a lower G&A expense ratio.

The net combined ratio was 122.7% in third quarter 2020, up 27.2 points from 95.5% in the prior year quarter. The increase stems from a higher net loss ratio, partly offset by a lower net expense ratio, as described above.
